

# New! *From the University of California*

This new manual for avocado growers and pest control professionals uses the most up-to-date research available from University of California faculty and Cooperative Extension specialists, farm advisors, and pest control advisors. Illustrated with 386 color photographs and 64 line drawings and charts that will help you identify and manage over 100 important pests and disorders.

## *Using this guide you'll learn how to:*

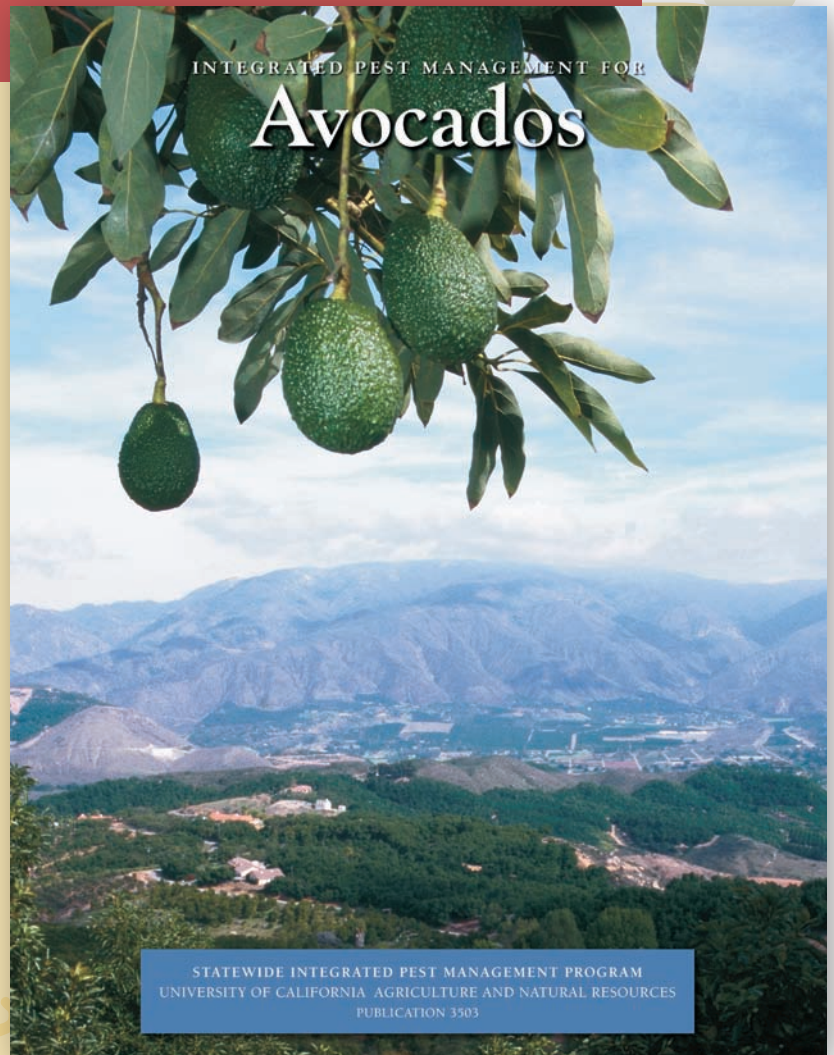

- Prevent and diagnose causes of damage
- Identify pests and key natural enemies
- Establish an IPM program for your grove
- Use biological control and other nonchemical methods
- Manage problems related to irrigation, nutrition, and the growing environment
- Determine when direct control actions are warranted

*Integrated Pest Management for Avocados* is designed for use with the 2007 revision of the *Avocado: UC IPM Pest Management Guidelines* available at <http://anrcatalog.ucdavis.edu> and the new seasonal decision-making guide: *Avocado Year-Round IPM Program* available at [www.ipm.ucdavis.edu](http://www.ipm.ucdavis.edu).

# Contents

<b>Integrated Pest Management for Avocados</b>	1	Boron	44	Pest Prevention and Management	90	Perennial Grasses	161
<b>The Avocado Tree: Development and Growth Requirements</b>	3	pH	45	Cultural Practices	90	Bermudagrass	161
The Seasonal Cycle of Avocado	3	Alkalinity	45	Biological Control	90	Dallisgrass	162
Growth Requirements	6	Phytotoxicity	46	Pesticides	92	Summer Annual Grasses	162
<b>Managing Pests in Avocados</b>	9	Injuries	47	Mites	93	Barnyardgrass	163
Pest Prevention	9	Carapace Spot	49	Persea Mite	93	Crabgrasses	163
Identification and Diagnosis	11	Sunburn	49	Avocado Brown Mite	98	Longspine Sandbur	164
Monitoring	12	Heat Damage	50	Sixspotted Mite	100	Winter Annual Grasses	165
Monitoring Units	13	Ringneck	50	Avocado Bud Mite	101	Annual Bluegrass	165
Monitoring Pests	13	Fire	50	Avocado Bud Mite	101	Bromes	165
Monitoring Weather	14	Frost and Freeze	51	Thrips	101	Wild Oat	165
Year-Round IPM	14	Managing Cold Damage	52	Avocado Thrips	101	Sedges	166
Control Action Guidelines	15	Genetic Disorders	54	Neohydatothrips	106	Nutsedges	166
Management Methods	15	Cuke	54	Greenhouse Thrips	106	Perennial Broadleaves	167
Site Selection and Preparation	15	Embossment	55	Caterpillars	109	Field Bindweed	167
Rootstock Cultivar Selection	17	Disorders of Unknown Cause	55	Amorbia or Western	112	Prickly Pear	168
Excluding Foreign Pests	18	Crick-Side	55	Avocado Leafroller	112	Wild Cucumber	168
Sanitation	18	Split Fruit	55	Omnivorous Looper	115	Summer Annual Broadleaves	169
Mulch	18	Warty Fruit	56	Orange Tortrix	118	Common Cocklebur	169
Vegetation Management	18	Woody Avocados	56	Ants	119	Nightshades	170
Irrigation	19	<b>Diseases</b>	57	Hemiptera	121	Puncturevine	170
Fertilization	20	Monitoring and Diagnosis	58	Avocado Lace Bug	121	Winter Annual Broadleaves	171
Pruning	20	Prevention and Management	58	Armored Scales	122	Nettles	172
Harvesting	21	Plant Wisely	59	Soft Scales	124	Mustards	172
Biological Control	21	Use Good Sanitation	59	Whiteflies	128	<b>Vertebrates</b>	173
Conservation	22	Provide Good Cultural Care	59	Mealybugs	132	Managing Pest Vertebrates	174
Pesticides	24	Pathogens that Infect through Roots	60	Leafhoppers and Sharpshooters	133	Observation and Identification	174
Using Pesticides Effectively	24	Avocado Root Rot or Phytophthora Root Rot	60	Twospotted Leafhopper	133	Monitoring	174
Problems Associated with Pesticides	24	Armillaria Root Rot	66	Glassy-Winged Sharpshooter	133	Control Actions	174
Pesticides Resistance	24	Dematophora or Rosellinia	68	Exotic Pests	135	Habitat Modification	176
Pest Resurgence	25	Root Rot	68	Fruit Flies	135	Biological Control	176
Secondary Pest Outbreak	25	Root, Crown, and Wood Rots	69	Diaprepes Root Weevil	136	Exclusion	176
Hazards to Honey Bees	25	Verticillium Wilt	70	Pests of Young Trees	137	Trapping	177
Hazards to Water Quality and Wildlife	25	Cankers on Limbs and Trunks	71	Fuller Rose Beetle	138	Endangered Species	177
Air Pollution	26	Phytophthora Canker or Citricola Canker	71	June Beetles (Scarabs)	139	Guidelines	177
Hazards to Humans	28	Dothiorella Canker	73	Grasshoppers	140	Baits	177
<b>Cultural Practices and Abiotic Disorders</b>	29	Bacterial Canker	74	European Earwig	140	Fumigants	178
Water Deficiency and Excess	29	Avocado Black Streak	76	Brown Garden Snail	141	Vertebrate Pests	179
Water Management	30	Symptoms on Fruit, Leaves, and Twigs	77	False Chinch Bug	143	Ground Squirrels	179
Irrigation Methods	31	Sunblotch	77	Branch and Twig Borer	143	Eastern Fox Squirrel	181
Sprinkler Irrigation	31	Anthracnose	79	Nematodes	145	Pocket Gophers	182
Micro-Irrigation	31	Stem End Rot	81	<b>Weeds</b>	147	Opossum	184
Scheduling Irrigations	33	Phytophthora Fruit Rot	82	Life Cycles	148	Raccoon	185
Tree-Based Assessment	33	Dothiorella Fruit Rot	83	Monitoring	148	Rats	185
Soil-Based Assessment	33	Dothiorella Leaf and Stem Blight	84	Fall Monitoring	149	Deer Mice	186
Evapotranspiration	34	Sooty Mold	85	Winter Monitoring	149	Voles (Meadow Mice)	186
Irrigation Efficiency	34	<b>Insects, Mites, and Other Invertebrates</b>	87	Spring Monitoring	152	Rabbits	188
Distribution Uniformity	35	Key Pests	87	Summer Monitoring	152	Deer	190
Aeration Deficit or Root Asphyxiation	35	Secondary and Occasional Pests	88	Management before and during Grove Establishment	153	<b>Harvest Management for Fruit Quality</b>	193
Fertilization	37	Young Tree Pests	88	Control Perennial Weeds	153	Prevent Fruit Quality Problems	193
Nutrient and Mineral Disorders	38	New and Exotic Pests	88	Control Annuals and Seedlings	154	Pick a Good Harvest Time	194
Nitrogen	39	Beneficial Invertebrates	88	After-Planting Strategies	154	When Picking Fruit	195
Phosphorus	40	Monitoring Insects and Mites	89	Management in Established Groves	155	Educate and Manage Field Workers	196
Potassium	40	Monitoring Units	90	Sanitation	155	After Fruit Are Picked	196
Iron	40	Visual Inspection	90	Irrigation	155	<b>World Wide Web Sites</b>	199
Manganese	42	Traps	90	Mulch	155	<b>Suggested Reading</b>	201
Zinc	42			Cover Crops	156	<b>Literature Cited</b>	205
Chloride and Sodium	43			Hand-Weeding	156	<b>List of Tables and Figures</b>	207
Salinity	43			Cultivation	156	<b>Glossary</b>	209
