Grape—Dormant Weed Survey

Supplement to UC IPM Pest Management Guidelines: Grape

Grower/Vineyard: _____ Date: _____

Comments: _____

Mechanical Control/Herbicide/Application Date: _____

Record weeds on the form below; use the map to record the location of problematic weeds.

Directions:

1. Survey your vineyard in late fall or winter to identify weed escapes and perennials.
2. Survey areas around the vineyard as these areas can be a potential source for wind-disseminated seeds.
3. Rate infestation either using a numeric scale from 1 to 5 (1 being the lightest), or use “light,” “medium,” or “heavy.”

Winter Annuals and Perennial Weeds

Weed	Row middles	Rows
Annual broadleaves		
swinecress
